

Automotive Alternator

This alternator is designed for automotive applications, providing reliable electrical power. It features robust construction, efficient cooling, and compatibility with various vehicle models for long-lasting performance.

Product Overview

Reliable Automotive Power Solution

This automotive alternator is engineered to provide consistent electrical power for vehicle systems, ensuring optimal charging performance. Featuring robust construction and efficient cooling, it is designed for long-lasting durability in demanding conditions. It is specifically compatible with classic vehicle models like the Austin Metro and Rover series.

Electrical Performance

Core Electrical Specs

12 V

Voltage

35 A

Rated Current

Mechanical Specifications

Pulley Configuration

Single Pulley

Compatibility & Fitment

Vehicle Applications

- Austin Metro
- Austin Mini
- Rover

Identification

OEM Reference Number

LRA100

Product Features

Key Benefits

Robust Construction, Efficient Cooling, Long-lasting Performance, Optimal Charging
