Overview

High-Performance Automotive Alternator

This high-performance alternator is specifically engineered for ISUZU 4JH1 engines, providing reliable power generation for automotive applications. Featuring a robust silver-finished housing and a durable black pulley, it is designed for efficient integration into existing electrical systems. With a one-year warranty and a focus on long-lasting reliability, it serves as a dependable solution for professional sourcing needs.

Electrical Specifications

Performance Metrics

12 V

Rated Voltage

60 A

Rated Current

Compatibility & Identification

OEM Reference

LR160-503E

Engine Model

ISUZU 4JH1

Product Type

SHB-118

Technical Dimensions

Technical Measurements

Component	Measurement
Pulley Diameter	Æ82m
Pulley Width	17 mm
Hole Diameter	∅10.3mm
Mounting Bolt	M8
Radius Specs	R85±0.2 / R90±0.2

Manufacturing & Service

Warranty	One year
Production Lead Time	40-45 days
Key Features	Robust Construction, Green Winding Insulation, High-Performance, Easy Integration
