

Automotive Brake Light Switch

This automotive brake light switch activates the brake lights when the brake pedal is depressed. It is constructed from durable plastic and metal to ensure reliable performance and longevity.

Product Overview

Automotive Brake Light Switch

These automotive brake light switches are essential safety components designed to activate brake lights upon pedal depression. Engineered to meet or exceed OEM specifications, they ensure reliable performance and consistent fitment across various vehicle models. Constructed from high-quality, durable plastic and metal, these switches offer long-lasting functionality in critical braking systems.

Compatibility

Vehicle Compatibility

Part Number	Compatible Vehicle
453440	Peugeot 206
453444 / 9634667980	Peugeot 206 16V
453448	Peugeot 307
453471	Peugeot 508
