

Automotive Brake Lining Set

This brake lining set provides reliable stopping power. It is characterized by its precise dimensions, including a 209mm outer arc length, 155mm width, and 15.5mm thickness, along with 12 mounting holes.

Product Overview

High-Performance Brake Lining Set

This automotive brake lining set is precision-engineered to meet rigorous performance standards for heavy-duty vehicle braking systems. Designed with a robust construction, it ensures reliable stopping power and durability under demanding operational conditions. The set features a standardized design with 12 mounting holes, facilitating straightforward installation and consistent fitment.

Dimensions

Primary Dimensions

209 mm

Outer Arc Length

155 mm

Width

15.5 mm

Thickness

Technical Specifications

Mounting Specifications

Feature	Value
Mounting Holes	12
Hole Spacing	72mm / 119mm
Arc Height	182.7mm
Mounting Pin Angle	150°
Pin Head Diameter	15mm
Pin Diameter	7.5mm

Logistics

Packaging Information	24 pcs/box
