Product Overview

Advanced Integration Interface

This automotive camera interface is specifically engineered for Mercedes-Benz vehicles equipped with NTG 5.0, 5.1, and 5.2 head units. It seamlessly integrates aftermarket camera systems, including front, rear, and 360-degree panoramic inputs, directly into the factory display. The system supports dynamic parking guidelines and PDC display, maintaining the original vehicle aesthetics and functionality while significantly enhancing driver visibility and safety.

Compatibility

Supported Head Units

NTG 5.0 • NTG 5.1 • NTG 5.2

Supported Screen Sizes

- 7 inch
- 8.4 inch

Supported Mercedes-Benz Series

A-Series, B-Series, C-Series, E-Series, CLA, CLS, GLE, GLC
