

Automotive Clutch Cover Assembly

This clutch cover assembly is designed for automotive applications. It features a robust construction with multiple mounting points and a central aperture for the clutch mechanism.

Product Overview

Automotive Clutch Cover Assembly

The CMB-017 clutch cover assembly is engineered for reliable performance in automotive drivetrain systems. Featuring a robust construction with multiple mounting points, this assembly is finished in a metallic gray coating to ensure excellent corrosion resistance and long-term durability. It is designed with precision-integrated springs and levers to facilitate smooth and consistent clutch engagement and disengagement.

Technical Details

Model Number	CMB-017
Surface Finish	Metallic Gray
Key Features	Corrosion Resistant, Durable Construction, Automotive Grade
