Product Overview

High-Performance De-Icer Solution

This high-performance de-icer spray is specifically formulated to rapidly melt ice and frost from vehicle windows, mirrors, and locks. Designed for professional and automotive use, it ensures immediate visibility to enhance driving safety during harsh winter conditions. The formula includes specialized solvents to prevent re-freezing and contains corrosion inhibitors to protect vehicle surfaces.

Technical Specifications

Volume	600 ml
Application Method	Aerosol spray
Compatible Surfaces	Glass, Paint, Metal

Key Features

Performance Benefits

- Rapid ice and frost melting
- Prevents re-freezing
- Contains corrosion inhibitors
- Leaves no residue
- Protective film application
