

# Automotive Emergency Flare and Inspection Work Light Set

This set features an orange emergency roadside flare with a handle, protective cage, battery clips, and charging adapter. It also includes a work light with a reflective metal shade, a clamp for attachment, and a red handle.

## Product Overview

### Versatile Automotive Lighting Solutions

This essential automotive set combines an emergency roadside flare with a heavy-duty inspection work light, providing comprehensive visibility for both safety and maintenance. Designed for durability in roadside and workshop environments, the kit includes specialized mounting options like clamps and protective cages to ensure reliable performance during repairs. Whether signaling for help or illuminating a complex engine bay, these tools are indispensable for any vehicle emergency kit.

## Emergency Flare
