Overview

High-Efficiency Engine Protection

This automotive engine air filter is engineered to provide optimal engine performance by effectively removing dust, pollen, and other airborne contaminants from the intake system. Designed to meet or exceed OEM specifications, it features a pleated paper element and a durable frame to ensure a secure fit and prevent air leakage. Regular use contributes to improved air quality, enhanced fuel efficiency, and an extended engine service life.

Technical Specifications

Primary Function

- Dust removal
- Pollen filtration
- Contaminant protection
- Air intake optimization

Filter Type

Pleated Paper Filter Element

Compatibility

Cross-Reference / OEM Codes

Reference Type	Part Number
OEM	1444VF
OEM	466
MANN	C1760
CA	CA5456
DA	DA3456
DA	DA3466

Vehicle Applications

Citroen BX, Citroen C15, Citroen Visa, Peugeot 206, Peugeot 208, Lada, Renault

Performance Benefits

Key Benefits

Improved Fuel Efficiency • Extended Service Life • Easy Installation • Reliable Filtration
