Automotive Entertainment System with Touchscreen

This car entertainment system features a color screen with full touch operation. It supports AM/FM radio, USB media playback, and reversing camera input.

Overview

Advanced Automotive Entertainment System

This high-performance automotive entertainment system features a vibrant color touchscreen interface designed for seamless integration into modern vehicles. It offers a comprehensive suite of features including built-in GPS navigation with handwriting support, Bluetooth hands-free connectivity, and versatile media playback from USB sources. Engineered for broad compatibility, the system utilizes dedicated wiring harnesses and vehicle-specific panels to ensure a factory-style fit and easy installation.

Key Features

Core Functionality

- Full touch operation color screen
- Automatic reversing camera support with AV input
- Automatic light sensing functionality
- High-sensitivity digital AM/FM radio receiver
- Simultaneous navigation and media playback
- Handwriting input support for navigation
- Bluetooth connectivity with caller ID and call history

Media Capabilities

Supported Media Formats	MP3, MPEG4, WMA, JPEG
Radio Presets	36 stations

Vehicle Compatibility

Supported Vehicle Brands	Toyota, Brilliance, Kia, Nissan, Suzuki, Volkswagen, Haima, Buick, Hyundai, Peugeot, Ford, Chery, BYD, Mitsubishi, Honda, Chevrolet
Installation Notes	Uses original car-style high-quality panels and dedicated wiring harnesses for easy, professional-grade installation.

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
