Product Overview

High-Performance Dosing Pump

This automotive fluid dosing pump is engineered for precise fluid metering within SCR emission systems. Built with a robust combination of metal, rubber, and plastic, it ensures durability and reliability in demanding automotive environments. It is designed to meet strict emission standards and maintain optimal system performance.

Technical Specifications

Part Number	5303018
Application	Cummins SCR Emission System
Materials	Metal, Rubber, Plastic

Physical Dimensions

Dimensions

25 cm Length	19 cm Width	22 cm Height
------------------------	-----------------------	------------------------

Weight	3.5 kg
--------	--------

Logistics & Quality

Quality Grade

Genuine

Delivery Options

- By sea
- By air
- By express

Payment Terms

Term	Details
Standard	TT 30% deposit, 70% upon bill of lading
Alternative	L/C

Packaging

1 piece per box
