Product Overview

Enhanced Visibility and Safety

This automotive fog light kit is engineered to provide superior illumination in adverse weather conditions, including heavy rain, snow, fog, and smoke-filled environments. By significantly improving road visibility, these lamps ensure safer driving experiences. The integrated LED daytime running lights (DRL) not only add a modern aesthetic but also increase vehicle conspicuity for oncoming traffic.

Technical Specifications

Included Components

- 2 x Fog lamp assemblies
- Chrome trim accents
- Wiring harness with protective conduit
- Relay
- Fuse
- Illuminated on/off switch

Construction

Durable Materials • Weather Resistant • Long-lasting Performance

Installation Features
