

Automotive Fuel Tank with Chrome Cap

This durable red metal fuel tank is designed for automotive applications. It features a chrome fuel cap for secure sealing and easy access.

Product Overview

Durable Automotive Fuel Storage

This high-quality red metal fuel tank is engineered for automotive applications, offering a robust solution for custom builds, vehicle restorations, or direct replacements. It features a secure chrome fuel cap designed for easy access and reliable sealing. Built to withstand demanding environments, its corrosion-resistant and impact-resistant construction ensures longevity and performance.

Physical Attributes

Color	Red
Material Finish	Metal
Cap Material	Chrome

Features

Key Features

- Corrosion-resistant construction
- Impact-resistant body
- Secure-sealing chrome cap
- Compact design for flexible mounting

Best For	Custom Builds, Vehicle Restoration, Replacement Parts
