

Automotive Headlamp Assembly

This automotive headlamp assembly is designed for the Reiz 05 model. It provides essential illumination for safe driving during nighttime or low-visibility conditions.

Product Overview

Automotive Headlamp Assembly

This automotive headlamp assembly is engineered specifically for the Reiz 05 model, providing reliable illumination for safe driving in low-visibility conditions. The unit integrates high beam, low beam, and indicator functions into a single, durable housing. Designed for direct replacement, it features a high-clarity lens and an optimized reflector system to ensure consistent beam patterns and maximum light output.

Technical Details

Factory Reference Code	wt-17-c-106
Compatible Vehicle Model	Reiz 05

Features

Design & Construction

- Clear lens for optimal light transmission
- Reflector design for maximized beam pattern
- Durable construction for environmental resistance
- Direct replacement fitment

Integrated Lighting Functions

High Beam, Low Beam, Indicator
