

Automotive Heater Core

The heater core is a radiator-like component responsible for providing heat to the vehicle's cabin. Hot coolant circulates through the core, and a fan blows air across its fins, transferring heat to the air.

Product Overview

High-Performance Automotive Heater Core

This automotive heater core is engineered for efficient heat transfer and reliable performance within vehicle HVAC systems. Constructed with durable, corrosion-resistant materials, it ensures long-lasting operation and consistent heating for passenger comfort. Its compact, precision-engineered design allows for optimal fit and straightforward installation.

Technical Specifications

Core Dimensions	133 x 180.5 x 26 mm
OEM Reference	271153553R
Nissens Reference	6273044

Compatibility

Vehicle Compatibility

Vehicle Model	Model Year
RENAULT CLIO IV	2012-
RENAULT CLIO Grandtour	2013-
