Product Overview

High-Efficiency Automotive Heater Core

This automotive heater core is engineered for optimal thermal performance, facilitating efficient heat transfer from engine coolant to the cabin environment. Designed with a compact structure and dense fin arrangement, it ensures consistent heating even in challenging cold weather conditions. Built with durable materials, this component is a reliable solution for maintaining a comfortable and safe driving experience.

Technical Specifications

Core Dimensions

144 mm

Width

193.5 mm

Length

26 mm

Depth

OEM Reference

271159831R

Nissens Cross Reference

73343

DPI Number

73343

Compatibility

Compatible Vehicle Models

- Renault Megane III
- Renault Megane III Coupe
- Renault Scenic III

Production Years

2008-Present
