Product Overview

High-Performance Automotive Heater Core

This automotive heater core is engineered for efficient heat transfer and reliable performance within vehicle heating systems. Built to withstand demanding thermal conditions and pressures, it ensures consistent operation and passenger comfort in cold climates. Its compact design facilitates straightforward installation and broad compatibility with specific vehicle models.

Technical Specifications

Core Dimensions	167 x 148 x 32 mm
OEM Part Numbers	1956603, MB939999
DPI Number	72050

Compatibility

Vehicle Application

Make	Model	Year Range
FORD	MAVERICK	93-98
Nissens Reference		6272017
