Product Overview

High-Efficiency Automotive Heater Core

This automotive heater core is engineered for optimal heat transfer and long-term durability in demanding heating systems. Featuring a robust construction with precision-engineered fins, it maximizes surface area to ensure reliable cabin heating even in harsh cold weather conditions. Designed to meet or exceed OEM specifications, this unit provides a seamless fit for various DAF vehicle models, making it an ideal replacement for worn or damaged components.

Technical Dimensions

Core Dimensions

368 mm
Length

187 mm
Width

32 mm
Depth

Compatibility

Compatible Vehicle Models

- DAF 65 (1993-1998)
- DAF 75 (1992-1998)
- DAF 85 (1992-1998)
- DAF 95 XF (1997-2002)

OEM Reference Number 1262853

Nissens Reference 6277016

Construction

Design Features

High-Efficiency Heat Transfer, Robust Metallic Construction, Internal Fluid Channels, Optimized Fin Density
