Product Overview

High-Efficiency Automotive Heater Core

This automotive heater core is engineered for optimal heat transfer and reliable performance within vehicle heating systems. Featuring a durable construction with tightly packed fins, it maximizes surface area for efficient heat dissipation. The unit is designed to meet or exceed original equipment specifications, ensuring a precise fit and straightforward installation for long-lasting passenger comfort.

Technical Specifications

Core Dimensions

174 mm

Length

166 mm

Width

36 mm
