Product Overview

Reliable Hood Release Solution

This automotive hood release cable is engineered to match the exact dimensions and performance standards of original equipment. Designed for longevity, the assembly features corrosion-resistant materials and a sheathed, lubricated inner cable to ensure smooth, consistent operation. The ends are reinforced using a specialized bird-caging technique before die-casting, which significantly increases pull-off force and overall durability.

Technical Specifications

Construction Features

- Corrosion-resistant design
- Sheathed and lubricated inner cable
- Bird-caged wire ends for high pull-off force
- Die-cast end fittings
