

Automotive HVAC Heater Core

This heater core is designed for efficient heat transfer in automotive HVAC systems. Constructed from durable materials, it offers reliable performance and corrosion resistance.

Product Overview

High-Performance Automotive HVAC Heater Core

This automotive heater core is engineered for efficient heat transfer within vehicle HVAC systems. Constructed from durable materials, it is designed to withstand the high temperatures and pressures of a vehicle's cooling circuit while providing consistent heating performance. Its compact, rectangular matrix design ensures optimal thermal conductivity and straightforward installation for passenger vehicles and light trucks.

Technical Specifications

| | |
|-------------------|---------------------|
| Core Dimensions | 154 x 193.5 x 26 mm |
| OEM Part Number | 97138-1W000 |
| Nissens Reference | 6270097 |
| TS Number | 6270097 |

Compatibility

Compatible Vehicle
KIA RIO 4
