Overview

High-Performance Heater Core

This automotive heater core is engineered for efficient heat transfer within vehicle HVAC systems. Designed with durable materials for optimal thermal conductivity, it ensures consistent and reliable cabin heating. This unit is a precise fit for specific Honda Civic models, making it an ideal choice for maintenance and replacement applications.

Technical Specifications

Core Dimensions	200 x 117 x 42 mm
OEM Part Numbers	94799, 94750, 99223
Nissens Reference	6274027

Compatibility

Compatible Vehicle	Honda Civic
Model Year	Refer to vehicle service manual for specific year matching
