

# Automotive Intercooler for Turbocharged Engines

This intercooler enhances engine efficiency by cooling the intake air charge. It features a robust core construction for optimal heat transfer and durable end tanks for reliable performance.

## ADDITIONAL IMAGES

## Overview

### High-Performance Automotive Intercooler

This high-performance intercooler is engineered to enhance engine efficiency by effectively cooling the intake air charge. Featuring a robust core construction, it is designed to optimize heat transfer while minimizing pressure drop. This component is an essential upgrade for turbocharged engines, contributing to improved horsepower, torque, and overall fuel economy.

## Compatibility

Compatible Vehicle	Peugeot 308 CC
OEM Part Number	9800291280
Nissens Reference	56247

## Technical Specifications

Core Dimensions	300 x 147 mm
Water Tank Dimensions	89/89 x 151 mm
Key Performance Features	Optimized Heat Transfer, Reduced Pressure Drop, Turbocharged Engine Compatible
