Product Overview

Kingpin Series Overview

The Kingpin Series offers a robust selection of automotive components engineered for precise fit and durability. This versatile lineup includes multiple models such as the XH50, XZ50, XZ90A, and XZ90C, each tailored to specific dimensional requirements. Designed for critical automotive applications, these kingpins ensure reliable performance and structural integrity.

Technical Specifications

Supported Diameters (mm)

- 200
- 150
- 260
- 235
- 73
- 50.8
- 71.5

Application

Automotive

Available Models

XH50, XZ50, XZ90A, XZ90C

Bolt Configuration

8-M14
