Product Overview

Dual-Function Automotive Lighting Solution

This universal LED fog lamp is engineered to provide superior illumination for a wide range of vehicle models. Combining both fog lamp and Daytime Running Light (DRL) functions in a single unit, it ensures enhanced visibility and safety in adverse weather conditions. Built with high-efficiency LED technology, this durable lamp offers a bright, focused beam pattern designed for long-lasting performance and seamless integration into your vehicle's electrical system.

Technical Specifications

Fog Lamp Performance

9 W

Power

800 LM

Brightness

12 V

Voltage

DRL Performance

3 W

Power

300 LM

Brightness

12 V

Voltage

Optical Properties

Feature	Fog Lamp	DRL
LED Type	Luxeon LED (3pcs)	OSRAM LED (12pcs)
Color Temperature	6000-7000k	6000-7000k

Compatibility & Installation

Installation Features

- Includes mounting hardware
- Includes wiring and connectors
- Designed for seamless integration

Vehicle Compatibility

Universal Fit, TY Series, LX Series
