Automotive Multi-Media Player

This auto engine features support for various media formats, high-sensitivity digital tuning and navigation. It also has built-in Bluetooth hands-free, USB playback, color screen with touch control and automatic reversing camera.

Product Overview

Advanced Automotive Multi-Media System

This high-performance automotive multi-media player is designed to enhance the driving experience with a comprehensive suite of entertainment and navigation features. It features a high-definition TFT touch screen with an intuitive graphical user interface for seamless control. With integrated GPS navigation, Bluetooth connectivity, and support for multiple media formats, it provides a versatile solution for modern vehicle upgrades.

Core Features

Key Features	GPS Navigation, Bluetooth Hands-free, Steering Wheel Control, Automatic Reversing Camera, Handwriting Input, Voice Navigation

Display & Interface

Display Specifications

1 TFT	1 Touch Screen
Display Type	Control Method

Connectivity & Media

Supported Media & Connectivity

- USB Playback
- AM/FM Radio (36 Presets)
- AV Input
- Bluetooth Connectivity
- MP3/MPEG4/WMA/JPEG Support

System Capabilities

Advanced System Controls

Automatic Light Sensing • Independent Speaker Control • Steering Wheel Integration • Reversing Camera Support
