Product Overview

High-Performance Automotive Oil Cooler

This high-efficiency oil cooler is engineered to maintain optimal oil temperatures in demanding automotive applications. Designed with a robust core for maximum heat dissipation, it helps prevent oil degradation and overheating, effectively extending engine life. Its compact, durable construction ensures reliable performance and easy integration, making it an ideal cooling solution for various vehicle models.

Compatibility

Compatible Vehicle	Dodge Journey (Crossroad, GT, SE)
Engine Capacity	2.4L, 3.6L
Model Years	2015-2019

Technical Specifications

Key Features

- Optimal heat dissipation
- Corrosion-resistant materials
- Compact and lightweight design
- Improved engine longevity

Core Dimensions	672 x 120 mm
Reference ID	52086
