Product Overview

Professional Automotive Paint Polisher

This automotive paint polisher is a versatile power tool designed for effective car detailing, capable of both waxing and polishing tasks. Engineered with a high-impact ABS shell, it offers durability while maintaining a low-noise and low-vibration operation for user comfort. Its ergonomic design ensures a comfortable grip, making it an ideal choice for restoring paint surfaces and removing swirl marks or oxidation.

Technical Specifications

Speed

3500 rpm

No-Load Speed
