Product Overview

Professional Surface Preparation

This high-performance automotive surface prep cleaner is specifically formulated to effectively remove dirt, grime, and contaminants from vehicle paint surfaces. Designed to enhance the adhesion of subsequent adhesive products like vinyl wraps, it ensures a pristine base for professional detailing. The formula is safe for all types of automotive paint, including clear coats, and is designed to leave a clean, glossy finish without damaging the underlying surface.

Technical Specifications

Net Volume	650 ML
Executive Standard	QJJ/GZC85-2018
Shelf Life	3 years

Usage Guidelines
