

Automotive Parking Assist Sensor for BMW

This parking assist sensor is designed for BMW vehicles. It provides reliable obstacle detection, enhancing parking safety and convenience.

Product Overview

Products are carefully packaged in protective cardboard boxes to ensure safety during transit.

High-Precision Parking Assistance

This high-precision parking assist sensor is engineered to provide reliable obstacle detection, significantly enhancing safety and convenience during parking maneuvers. Designed with robust construction to withstand harsh environmental conditions, it serves as an ideal replacement for damaged or malfunctioning original equipment. The sensor undergoes rigorous testing to ensure consistent performance and durability for long-term automotive use.

Compatible Part Numbers

- 66209231283
- 66209233031
- 66202180495
- 66202151635
- 66209233051
- 66209233037
- 66209233032
- 66209233047

Quality & Compliance

Ingress Protection

IP67

Certifications

ISO 14001:2015, IATF 16949:2016, OHSAS 18001:2007, RoHS Compliant

Testing & Validation

Comprehensive in-house testing suite, including salt fog, vibration, and climate chambers, ensures product reliability.

Environmental Testing Suite

- Salt Fog Corrosion Testing
- Sand and Dust Chamber
- Rain Resistance Testing
- Constant Humidity and Heat Cycling
- Vibration Bench Testing
- Impact Resistance Testing
- LCR Electrical Component Analysis
