

Automotive Radial Ball Bearing

This radial ball bearing is engineered for automotive applications. It provides efficient rotation and supports radial loads.

Product Overview

Precision Engineered Radial Bearings

These automotive radial ball bearings are designed for high-performance applications, offering exceptional durability and dimensional accuracy. The WK series provides a comprehensive range of sizing options to ensure a perfect fit for diverse automotive assemblies. Built to withstand rigorous operational demands, these components deliver consistent reliability and smooth rotation in critical systems.

Technical Specifications

WK Series Dimension Reference

Part Number	A	B	C	D
WK2461	4.62	0.53	1.96	0.7465
WK2474-2	4.74	1.02	1.6	0.7465
WK2484-1	4.85	1.22	1.5	0.7465
WK2493	4.93	1	1.8	0.7465
WK2494-1	4.94	1.04	1.78	0.7465
WK2495	4.95	1.21	1.61	0.7465
WK2500-2	5	1.23	1.64	0.7465
WK2500A	5	1.05	1.83	0.7465
WK2501	5.01	1.15	1.74	0.7465
WK2501-3	5.02	1.22	1.67	0.7465
WK2520	5.2	1.17	1.9	0.7465
WK2528-2	5.28	1.19	1.96	0.7465
WK2531	5.31	1.47	1.71	0.7465
WK2531-2	5.31	1.47	1.72	0.7465
WK2534	5.34	1.25	1.96	0.7465
WK2537-1	5.37	1.43	1.82	0.7465
WK2538-2	5.38	1.59	1.67	0.7465
WK2550	5.5	1.4	1.97	0.7465
WK2553	5.53	1.29	2.11	0.7465
WK2559-2	5.59	1.25	2.21	0.7465
WK2560	5.61	1.55	1.93	0.7465
WK2564-6	5.65	1.21	2.31	0.7465
WK2575	5.75	1.75	1.88	0.7465
WK2575-1	5.75	1.43	2.19	0.7465
WK2575-4	5.75	1.43	2.19	0.7465
