Product Overview

Professional Grade Rubber Seal Strip

This high-performance rubber seal strip is engineered to provide superior protection against water, dust, and external environmental factors. Designed with versatility in mind, it is suitable for demanding applications in the automotive, construction, and electronics industries. The product offers excellent durability and resistance to weathering, ensuring reliable long-term sealing performance for doors, windows, and curtain walls.

Material & Physical Properties

Customization

- Custom sizing via customer drawings or samples
- Variable hardness specifications
- Multi-color availability
- Bespoke design profiles
