

Automotive Rubber Weather Seal

This high-quality rubber seal is designed for automotive applications, providing a tight and durable seal against the elements. Its clip-on design ensures easy installation, while the textured surface enhances grip, making it ideal for sealing doors, windows, and sunroofs in vehicles.

Product Overview

Versatile Automotive Weather Seal

This high-quality rubber weather seal is engineered to provide a tight, durable barrier against the elements, effectively reducing noise and vibration. Featuring a user-friendly clip-on design and a textured surface for enhanced grip, it is suitable for a wide range of applications including automotive, industrial, and construction environments. It serves as an ideal solution for sealing doors, windows, sunroofs, and various industrial enclosures.

Applications

Automotive Applications

- Door seals
- Truck seals
- Truck cap seals
- Window seal spacers
- Wheel well seals
- Window weather striping

Building & Construction

- Curtain wall frames
- OEM window seals
- Door seals
- Slider door seals
- Tract and channel seals
- Garage door seals
- Edge guards
- Egress window frames

Industrial & Heavy Equipment

Railcars, Steamboat, Industrial electrical equipment, Construction machinery, Construction bridges, Tunnels, Containers, Drums, Barrels, Safes

Product Features

Key Features

Clip-on design • Textured surface • Noise reduction • Vibration dampening • Weather resistant
