

Automotive Suspension Control Arm

This is a right lower arm designed for automotive suspension systems. The component is manufactured to meet or exceed OEM specifications, ensuring a precise fit and reliable operation for maintaining proper wheel alignment and suspension function.

Product Overview

Automotive Suspension Control Arm

This Right Lower Control Arm is engineered for high-performance automotive suspension systems, ensuring optimal vehicle handling and stability. Designed to meet or exceed OEM specifications, it provides a precise fit and reliable operation for long-term durability. It is an essential component for maintaining correct wheel alignment and overall suspension integrity.

Technical Details

Installation Position

Right • Lower

OEM Part Number	48068-20260
Alternative Part Number	148068-AT191
Model Identifier	YX-02-132
System Compatibility	Automotive Suspension, Wheel Alignment
