

Automotive TPU Phone Holder

This TPU phone stand is designed for automotive use, ensuring stability for various phone sizes. It is made from durable TPU material, providing resistance to wear and tear in automotive environments.

Product Overview

Automotive TPU Phone Holder

This premium automotive phone stand is engineered for stability and durability within vehicle environments. Constructed from high-quality TPU material, it offers superior resistance to wear and tear during daily commutes. Its unique design features multiple support structures and a contoured base, ensuring that your device remains secure and positioned at an optimal viewing angle even while the vehicle is in motion.

Technical Specifications

Primary Material	Thermoplastic Polyurethane (TPU)
Application	Automotive, In-Car, Vehicle Dashboard

Key Features

Stability Benefits

- Multiple support structure design
- Secure base placement
- Contoured for optimal viewing angles
- Abrasion-resistant construction
