

# Automotive Turbocharger T04E48

The T04E48 turbocharger enhances engine power and efficiency. It is designed for optimal airflow and efficient exhaust gas utilization, improving engine responsiveness and reducing turbo lag.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Automotive Turbocharger

The T04E48 is a precision-engineered turbocharger designed to deliver enhanced engine power and superior efficiency. Built with robust materials for durability under demanding conditions, it optimizes airflow and exhaust gas utilization to provide significant improvements in horsepower and torque. This unit effectively reduces turbo lag, ensuring improved responsiveness and consistent performance for a wide range of automotive applications.

## Technical Specifications

Model Number	T04E48
Part Number	465637-0001

## Key Performance Attributes

### Performance Benefits

- Increased horsepower and torque
- Improved boost response
- Reduced turbo lag
- Optimized airflow efficiency
- Enhanced exhaust gas utilization

## Quality and Standards

Key Features	Robust Construction, Precision Engineered, High-Performance
