Product Overview

High-Performance Automotive V-Belt

This BX39 automotive V-belt is engineered for efficient power transmission across a wide variety of vehicle applications. Constructed with durable, heat-resistant materials, it is designed to withstand demanding operating conditions while ensuring long-term reliability. The belt adheres to international quality standards for automotive transmission systems, providing consistent performance and longevity.

Technical Specifications

Belt Type	BX39 Automotive V-Belt
Handling Precautions	Do Not Crimp

Quality & Compliance

Compliance Details

- International Accreditation Forum (IAF) recognition
- Automotive quality management system certified
- Designed for automotive timing and transmission systems

Quality Certifications	ISO/TS 16949:2009, CNAS, IAF, TSE
