

Automotive Vacuum Brake Booster

This power brake booster amplifies the force applied by the driver to the brake pedal. It enhances braking efficiency and reduces the effort required to achieve effective stopping power.

Product Overview

Automotive Vacuum Brake Booster

This vacuum brake booster is a critical component designed to amplify the force applied to the brake pedal, significantly enhancing braking efficiency and reducing driver effort. Engineered for reliability and longevity, the unit features a robust diaphragm and vacuum-assisted mechanism capable of withstanding demanding operating conditions. It serves as a direct-fit replacement, ensuring ease of installation and optimal performance for compatible vehicle systems.

Compatibility & Identification

OE Reference Numbers	2116119051, 2116119055, 2116119076
Vehicle Make Compatibility	Volkswagen

Technical Details

Component Type	Vacuum Brake Booster
Item Code	6432
