Product Overview

Professional Performance for Automotive Detailing

This high-performance automotive wax polishing machine is engineered to provide efficient surface preparation and finishing. It features a versatile variable speed control ranging from 2500 to 5000 RPM, making it ideal for polishing, waxing, and glazing tasks. With its ergonomic soft-grip design and detachable side handle, the tool ensures user comfort and precise control during long detailing sessions.

Technical Specifications

Electrical Requirements

120 V

Voltage

60 Hz

Frequency

130 W

Power Input

Speed Range

5000 RPM

Features

Performance Features

- Low noise operation
- High torque output
- High efficiency performance
- Variable speed control (2500-5000 RPM)
- Detachable side handle included

Maintenance

Equipped with EVA chassis for quick and easy pad changes.

Compliance

Certifications

GS, CE, EMC
