

Automotive Windshield Washer Fluid Pump

This windshield washer fluid pump is designed for automotive applications. It pumps washer fluid from the reservoir to the windshield for cleaning.

Product Overview

Automotive Windshield Washer Fluid Pump

This high-performance windshield washer fluid pump is engineered for efficient fluid transfer from the reservoir to the windshield cleaning system. Featuring a compact and durable black plastic housing, it is built to withstand automotive environmental demands while ensuring reliable operation. The unit is designed for straightforward installation and features a standard two-pin electrical connector for seamless integration into vehicle electrical systems.

Technical Specifications

Electrical Connector	2-pin
Housing Material	Durable Plastic
Hose Nozzles	2
Key Design Attributes	Compact Design, Easy Installation, High Durability
