

Automotive Wiper Motor Assembly

This complete steering and transmission wiper motor assembly is designed for automotive applications. It features a robust motor housed within a durable casing, ensuring reliable performance and longevity.

Product Overview

High-Performance Wiper Motor Assembly

This automotive wiper motor assembly is engineered to deliver reliable and consistent performance for enhanced driver visibility and safety. Featuring a robust motor housed in a durable, weather-resistant casing, it is built to exceed OEM specifications for longevity. The unit arrives complete with integrated mounting brackets and a standard control interface, ensuring seamless installation across a wide range of vehicle models.

Technical Specifications

Durability Certification

OEM Grade

Mounting Configuration

Integrated mounting brackets for secure installation

Construction

Robust motor, Durable casing, OEM compliant

Primary Application

Automotive windshield wiping systems
