

Aviation Tin Snips Set - Left, Right, and Straight Cut

This 3-piece aviation tin snips set is designed for cutting up to 18-gauge sheet metal. Each snip features hardened steel blades and ergonomic handles for durability, precise cuts, and reduced hand fatigue.

Overview

Professional 3-Piece Aviation Tin Snips Set

This comprehensive set includes left, right, and straight-cut aviation tin snips designed for versatile metalworking applications. Constructed from drop-forged carbon steel and heat-treated for enhanced durability, these tools provide precise cutting performance for various materials. The ergonomic plastic grip handles feature integrated safety guards to ensure comfortable and secure operation during intensive tasks like HVAC and roofing fabrication.
