

Axial Fan Blade Replacement for Ventilation Systems

Three-blade axial fan designed for air conditioners and ventilation equipment. It features a central hub with mounting holes and a durable construction for efficient airflow.

Product Overview

High-Efficiency Axial Fan Blade

This three-blade axial fan is engineered for optimal performance in air conditioning and ventilation systems. Designed for both replacement and new equipment integration, it features a robust central hub with precise mounting holes to ensure secure installation. Its durable construction promotes efficient airflow, making it a reliable component for professional HVAC maintenance and system design.

Technical Specifications

Key Features

Durable Construction • Efficient Airflow • Central Hub Mounting

Model Code	AS-GF20
Part Number	422X116-1
Number of Blades	3
Compliance	ROHS
