

Axial Ventilation Fan with Metal Construction

This axial fan is designed for refrigeration and ventilation purposes. It features a durable metal construction with a square frame and circular blade guard.

Product Overview

Industrial Axial Ventilation Fan

This high-performance axial ventilation fan is engineered for demanding refrigeration and ventilation applications. Constructed with a robust metal frame and aerodynamically shaped blades, it ensures reliable and efficient air circulation. Designed for industrial and commercial environments, the unit features a durable square frame and a protective circular guard for enhanced safety and longevity.

Technical Specifications

Construction Material	Robust Metal
Blade Design	4-Blade Aerodynamic
Frame Style	Square Frame
Safety Features	Circular Blade Guard, Chrome-Plated Hub

Applications

Primary Applications

- Refrigeration systems
- Industrial ventilation
- Commercial air circulation
