

Bagless Canister Vacuum Cleaner

This vacuum cleaner features a canister design with smooth-rolling wheels and powerful suction. It is equipped with a flexible hose and various attachments for versatile cleaning on different surfaces.

Product Overview

High-Efficiency Bagless Cleaning Solution

This cyclonic bagless canister vacuum cleaner combines powerful 2200W suction with a sophisticated 5-stage HEPA filtration system. Designed for versatility and ease of use, it features stepless speed control and automatic cord rewinding to streamline household cleaning tasks. Its robust 3L dust capacity and ergonomic design make it a reliable choice for maintaining a pristine environment across various floor types.
