

Bagless Canister Vacuum Cleaner

This compact vacuum cleaner has a bagless design with a transparent dust container. It features large wheels for maneuverability and a top-mounted handle for convenient carrying.

Product Overview

High-Efficiency Bagless Cleaning Solution

This compact canister vacuum cleaner offers a professional-grade cleaning experience with its high-power motor and efficient suction capabilities. Designed for versatility, it operates across multiple voltage standards and features a user-friendly bagless system with a transparent 1.8L container. Its robust construction, combined with large wheels for improved mobility, makes it an ideal choice for intensive cleaning environments.
