

Bagless Cyclonic Vacuum Cleaner

This cyclonic vacuum cleaner provides efficient dust and dirt removal. Its bagless design includes a transparent dust container and large wheels for maneuverability.

Product Overview

High-Efficiency Cyclonic Cleaning

This bagless cyclonic vacuum cleaner is engineered for powerful and consistent suction performance, utilizing advanced cyclonic action to separate dust particles from the airflow. With a generous 2.0L transparent dust container, users can easily monitor fill levels and maintain cleaning efficiency. The unit includes convenient features such as a washable HEPA filter and one-touch emptying, making it a reliable and low-maintenance solution for household cleaning tasks.

Key Features

Key Features

- Variable power control
- Automatic cord rewinder
- Pressure protector system
- Washable HEPA filter
- Built-in accessories
- Two parking positions
- One-touch dust container empty
