

# Bagless Cylinder Vacuum Cleaner

This bagless cylinder vacuum cleaner is designed for household use. It features a transparent dust container to easily monitor fill level and a filtration system.

## Product Overview

### High-Efficiency Cleaning Performance

The VCL-602 bagless cylinder vacuum cleaner is engineered for demanding cleaning tasks, offering high suction power of at least 17.5 Kpa. Featuring an advanced 5-stage filtration system and a double HEPA filter, this unit ensures superior air quality by effectively capturing dust and allergens. Its user-friendly design includes a 2.6L dust capacity and 360-degree hose rotation for effortless maneuverability.

## Performance Metrics

### Key Performance Indicators

**1800 W**

Max Power

**17.5 Kpa**

Min Vacuum Pressure

**78 dB(A)**

Noise Level

## Technical Specifications

### Electrical Requirements

- Voltage: 220/240V
- Power Range: 1200W-1800W
- Soft start technology

### Capacity and Reach

Feature	Value
Dust Capacity	2.6 L
Cable Length	4.8 M

### Design & Convenience

Double HEPA filter, 5 Stage filtration, Automatic cord rewinder, Hose swivel 360° rotation, Block fail safe
