

Bagless Cylinder Vacuum Cleaner

This bagless cylinder vacuum cleaner is equipped with a 1400W motor. It features a transparent dust container, an ergonomic handle, and smooth-rolling wheels for enhanced maneuverability on different floor surfaces.

Overview

High-Performance Cleaning Solutions

This bagless cylinder vacuum cleaner is engineered for efficient home and office maintenance, powered by a robust 1400W motor. Its advanced bagless design features a transparent dust container, allowing users to monitor debris levels and empty the unit with ease. Equipped with smooth-rolling wheels and an ergonomic handle, it provides superior maneuverability across various floor surfaces.
