

Ball Mill Overflow Grinding Liner

These ball mill liners are made from high chromium cast iron with a hardness greater than 60HRC. They are designed for overflow grinding applications and offer high wear resistance, high temperature resistance, and corrosion resistance.

Product Overview

High-Performance Grinding Solutions

These overflow grinding liners are engineered for exceptional wear resistance in demanding ball mill environments. Designed to provide a 10% longer operational lifespan compared to standard domestic alternatives, they offer a highly cost-effective solution for industrial grinding applications. Their robust construction ensures optimal processing efficiency, making them a reliable choice for mining and heavy industry operations.

Performance & Quality

Lifespan Advantage	10 %
Global Export Markets	Russia, Germany, Pakistan, Costa Rica, Argentina, Greece, Denmark, Colombia

Compatibility

Supported Mill Types

- FL Smidth ATOX
- Loesche LM
- GEBR. PFEIFFER
- MPS
- RM
- CKP
- MLS
- MPF
- TRM
- HRM
- ZGM
- HP

Service & Manufacturing

Years of Experience	20 years
Customization Available	Yes
